

## Global Survey: One Health Networks and Workforce Response to COVID-19

Dear Colleague,

A global survey, *One Health Networks and Workforce Response to COVID-19*, is now launched! You are invited to take the following two actions:

1) Complete the survey based on your experience.

<https://www.surveymonkey.com/r/OneHealthNetworkSurvey>

2) Forward this email and survey link to colleagues and other interested persons in your networks.

Responses are encouraged whether or not you work in One Health or are part of a One Health Network. The estimated time to complete this questionnaire is 10 minutes. It will remain open until 5:00 PM EDT Friday, August 14, 2020.

The objective of this collaborative study is to describe the contributions of the diverse workforce to the COVID-19 pandemic and the connection of One Health networks (OHNs) to workforce response activities. The results will expand the understanding of the value of a One Health approach and the role of OHNs. Results will be utilized to develop targeted interventions to improve workforce capacity for public health response to the COVID-19 and future pandemics.

Participation is voluntary. By submitting your answers, you consent to the use of this data for the research purposes indicated.

For more information, please see the [Participant Information Sheet](https://tinyurl.com/yd6b2z19) (<https://tinyurl.com/yd6b2z19>)

This is a project of the One Health Commission (OHC, <https://www.onehealthcommission.org/>) and the One Health European Joint Programme (OHEJP, <https://onehealthejp.eu/>), in partnership with the World Health Organization's Global Outbreak and Response Network (WHO-GOARN, <https://extranet.who.int/goarn/>).

Thank you for your assistance in this global effort. If you have any questions, please contact:
