

Solutions for One Health Surveillance in Europe

OHEJP MATRIX: WEBINAR SERIES 2022

WHAT IS MATRIX?

MATRIX is a project of the One Health European Joint Programme (OHEJP), a partnership of 44 food, veterinary and medical laboratories and institutes across Europe and the Med-Vet-Net Association.

The purpose of OHEIP MATRIX is to create solutions for European countries to support and to advance the implementation of One Health Surveillance. These solutions are currently under development and will be finalised for release by the end of 2022.

WHAT ARE THE SOLUTIONS FOR ONE HEALTH SURVEILLANCE IN EUROPE WEBINARS?

The Solutions for One Health Surveillance in Europe webinars present the solutions that are being developed by MATRIX to support and advance the implementation of One Health Surveillance in European countries.

During the webinars, participants will learn about the solutions, their intended use and current status of implementation. Participants will also have the opportunity to directly influence the ongoing refinement of the solutions by sharing their own experiences and needs associated with One Health Surveillance.

WHO CAN PARTICIPATE IN THE WEBINARS?

Surveillance officers, researchers and managers from institutes in Europe who work on One Health Surveillance in the animal health, human health, food safety, environmental and other relevant sectors are invited to participate in the Solutions for One Health Surveillance in Europe webinars.

Participation in the Solutions for One Health Surveillance in Europe webinars is free of charge.

Registration is via the registration links.

CONTACTS AND FURTHER INFORMATION

Guido Benedetti, MATRIX Project Leader

Statens Serum Institut, Denmark

Email: gube@ssi.dk

The Solutions for One Health Surveillance in Europe webinars are organized by Statens Serum Institut (SSI), the leading partner institute of the MATRIX project.

MATRIX project is part of the One Health European Joint Programme (OHEJP). MATRIX has received funding from the European Union's Horizon 2020 research and innovation programme under Grant Agreement No 773830.

WHAT IS SPECIAL AND COMMON FOR FOODBORNE HAZARDS IN ONE HEALTH SURVEILLANCE?

December 15th – 14.00-15.30 CET Registration link: TEAMS

How do microbes spread? How do they interact with their surroundings? What problems do they cause and how can they be mitigated? Is it reasonable to choose different approaches between countries? This webinar will point out what makes Listeria, Salmonella and Campylobacter different in a One Health surveillance context, as well as how these and other foodborne hazards can be tackled using the same set of tools.

University of Surrey, United Kingdom (UoS); Norwegian Veterinary Institute, Norway (NVI); Statens Serum Institut, Denmark (SSI); Istituto Zooprofilattico Sperimentale dell'Abruzzo e del Molise, Italy (IZSAM)

OHEJP MATRIX: WEBINAR SERIES 2022

INTERACTIVE GUIDE TO DEVELOPING **MULTI-SECTORAL SURVEILLANCE SYSTEMS**

November 24th – 14.00-15.30 CET Registration link: TEAMS

This interactive tool is a guide to facilitate the development of multi-sectoral (One Health) surveillance frameworks from existing animal health, public health and food safety surveillance systems. The guide provides a step-wise approach to developing such multi-sectoral surveillance frameworks, drawing upon both theoretical learnings and practical expertise/experiences.

Status of implementation: the tool is currently under development and is expected to be available late 2022.

Friedrich-Loeffler-Institut, Germany (FLI)

ONE HEALTH SURVEILLANCE CODEX: KNOWLEDGE INTEGRATION PLATFORM November 10th - 14.00-15.30 CET Registration link: TEAMS

The One Health Surveillance CODEX: Knowledge Integration Platform aims to establish a high-level framework to support the mutual understanding and information exchange between One Health Surveillance sectors. More information is available here.

German Federal Institute for Risk Assessment (BfR)

ROADMAP TO DEVELOP NATIONAL ONE HEALTH SURVEY October 6th – 14.00-15.30 CEST Registration link: **TEAMS**

This is a guideline that countries can use to develop One Health Surveillance according to their needs and resources. The roadmap expands the work of the OHEIP COHESIVE project.

More information about the OHEJP COHESIVE project and roadmap is available here.

Status of implementation: the guideline is currently under development and is expected to be available late 2022.

National Veterinary Institute, Sweden (SVA)

SUCCESSFULLY DELIVERED MANUAL FOR ONE HEALTH SURVEILLANCE DASHBOARDS September 15th – 14.00-15.30 CEST Registration link: **TEAMS**

This is an online dashboard inventory and practical manual to facilitate the design and implementation of One Health Surveillance dashboards using open source tools.

More information is available here.

Status of implementation: the manual is currently under development and is expected to be available late 2022.

National Veterinary Institute, Sweden (SVA) & Norwegian Institute of Public Health, Norway (NIPH)

SUCCESSFULLY DELIVERED FOOD SAFETY KNOWLEDGE EXCHANGE (FSKX) FORMAT June 8th – 14.00-15.30 CEST Registration link: TEAMS

The Food Safety Knowledge Exchange (FSKX) Format supports the One Health community in sharing and re-using mathematical models as well as data analysis procedures. More information is available here.

OHEJP MATRIX: WEBINAR SERIES 2022

OH-EPICAP TOOL May 19th – 14.00-15.30 CEST Re SUCCESSFULLY DELIVERED

This is an interactive tool to evaluate the capacities and capabilities for the One Health Surveillance of a specific sector and/or pathogen of choice. Additionally, the tool allows the benchmarking of surveillance capacities and capabilities forcomparison.

Status of implementation: the tool is due to be piloted and disseminated mid 2022.

Agency for Food, Environmental and Occupational Health & Safety, France (ANSES) & University of Surrey, United Kingdom (UoS)

HOW WE PROCESS YOUR PERSONAL DATA

We will process your personal data in connection with your registration to host a webinar at Statens Serum Institut (SSI). See below for further information regarding the processing of your personal data when hosting webinars at SSI for which you are registered.

Data controller for the processing of personal data

Statens Serum Institut

Artillerivej 5, 2300 Copenhagen S

CVR No.: 46 83 74 28 Tel: +45 3268 3268 Email: serum@ssi.dk

Data Protection Advisor

The Ministry of Health has a shared data protection adviser (DPO), Helle Ginnerup-Nielsen, who is employed by the Department of the Ministry of Health. The DPO can be contacted at databeskyttelse@sum.dk.

SSI has a local compliance division, which can be contacted at compliance@ssi.dk.

The purposes of the treatment

We process your personal information with the purpose of registering your participation in the webinar and in order to forward relevant information regarding the webinar.

The legal basis for the treatment

The processing of personal data is based on the General Data Protection Regulation, Article 6 (1), litra f.

Please be aware that Microsoft also processes personal data about you when you log on to the webinar, which will be hosted via your connection to Microsoft Teams. If you use a private license for Microsoft Teams, it is a relation between you and Microsoft. If you use a license that your employer has made available to you, it will probably be a relation between you and your employer. Read more about Microsoft's processing of personal data here.

Categories of personal information

We process the following categories of personal data about you:

Name Email address Employer Country

Recipients of the personal data

We will share your name and information about your employer with our external presenters at the webinar.

Please be aware that Microsoft also processes personal data about you when you log on to the webinar, which will be hosted via Microsoft Teams. In some cases, Microsoft uses subcontractors outside the EU / EEA. Read more about Microsoft's processing of personal data here.

Deletion of your personal data

After the completion of the webinar and once the evaluation form and other material has been sent, your personal data will be deleted.

You have the right to request the following:

- The right to request insight into the processing of personal data
- The right to request limitation of treatment
- The right to request the correction of personal data
- The right to request data portability
- The right to object to a treatment
- The right to request deletion

You should be aware that there may be a number of restrictions on your rights that follow from the Data Protection Regulation and the Danish Data Protection Act.

You have the right to complain to the Danish Data Protection Agency

To find more information, visit www.datatilsynet.dk.
